

Change: what works and what doesn't?

This is a two group activity

Group one task:

1. List three significant changes you have seen here that have actually happened.
2. Using the three issues as the basis for your thoughts, list the top six factors that help change things for the better here.

Group two task:

1. List three significant changes you have seen here that have failed.
2. Using the three issues as the basis for you thoughts, list the top six factors that cause attempts at changing things for the better here to fail.

When we return and work through the two tasks, we can then ask ourselves this question:

What does this tell us about how to change things for the better here?
